END USER LICENSE AGREEMENT (EULA)

END USER LICENSE AGREEMENT (EULA) FOR PROXMOX VIRTUAL ENVIRONMENT (PROXMOX VE)

By using Proxmox VE software you agree that you accept this EULA, and that you have read and understand the terms and conditions. This also applies for individuals acting on behalf of entities. This EULA does not provide any rights to Support Subscriptions Services as software maintenance, updates and support. Please review the Support Subscriptions Agreements for these terms and conditions. The EULA applies to any version of Proxmox VE and any related update, source code and structure (the Programs), regardless of the delivery mechanism.

1. License. Proxmox Server Solutions GmbH (Proxmox) grants to you a perpetual, worldwide license to the Programs pursuant to the GNU Affero General Public License V3. The license agreement for each component is located in the software component's source code and permits you to run, copy, modify, and redistribute the software component (certain obligations in some cases), both in source code and binary code forms, with the exception of certain binary only firmware components and the Proxmox images (e.g. Proxmox logo). The license rights for the binary only firmware components are located within the components. This EULA pertains solely to the Programs and does not limit your rights under, or grant you rights that supersede, the license terms of any particular component.

2. Limited Warranty. The Programs and the components are provided and licensed "as is" without warranty of any kind, expressed or implied, including the implied warranties of merchantability, non-infringement or fitness for a particular purpose. Neither Proxmox nor its affiliates warrants that the functions contained in the Programs will meet your requirements or that the operation of the Programs will be entirely error free, appear or perform precisely as described in the accompanying documentation, or comply with regulatory requirements.

3. Limitation of Liability. To the maximum extent permitted under applicable law, under no circumstances will Proxmox, its affiliates, any Proxmox authorized distributor, or the licensor of any component provided to you under this EULA be liable to you for any incidental or consequential damages, including lost profits or lost savings arising out of the use or inability to use the Programs or any component, even if Proxmox, its affiliates, an authorized distributor and/or licensor has been advised of the possibility of such damages. In no event shall Proxmox's or its affiliates' liability, an authorized distributor's liability or the liability of the licensor of a component provided to you under this EULA exceed the amount that you paid to

The Proxmox Installer automatically makes location based optimizations, like choosing the nearest mirror to download files. Also make sure to select the right time zone and keyboard layout.

Press the Next button to continue installation.

Location and Time Zone selection

- **Country:** The selected country is used to choose nearby mirror servers. This will speedup downloads and make updates more reliable.
- **Time Zone:** Automatically adjust daylight saving time.
- **Keyboard Layout:** Choose your keyboard layout.

Country	Indonesia
Time zone	Asia/Jakarta
Keyboard Layout	U.S. English

The screenshot shows the 'INSTALLED' screen of the Proxmox Virtual Environment installer. It features three main options: 'Install' (with a disk icon), 'Just Start' (with a play button icon), and 'Webbased' (with a browser icon). Below these options, the title 'Administration Password and E-Mail Address' is displayed. To the left of the title, a note states: 'Proxmox Virtual Environment is a full featured GNU/Linux system based on Debian. Therefore you should use a strong password with at least 5 characters.' To the right of the title, two bullet points provide instructions: '● **Password:** Please use strong passwords. Your password should be 8 or more characters in length. Also combine letters, numbers, and symbols.' and '● **E-Mail:** Administrator email address.' Below the title, a note says: 'All administrative emails are sent to the specified address.' A message at the bottom encourages the user to 'Press the Next button to continue installation.' The configuration screen itself shows fields for 'Password' (containing '*****'), 'Confirm' (containing '*****'), and 'E-Mail' (containing 'padli@raisa.web.id'). The 'Next' button is highlighted with a blue background and a cursor arrow pointing to it, while the 'Abort' button is in a standard grey box.

INSTALLED

Install Just Start Webbased

Network Configuration

Please verify the displayed network configuration. You will need a valid network configuration to access the configuration interface after installation.

Afterwards press the Next button to continue installation. The installer will then partition your hard disk and start copying packages.

- IP address: Set the IP address for the Proxmox Virtual Environment.
- Netmask: Set the netmask of your network.
- Gateway: IP address of your gateway or firewall.
- DNS Server: IP address of your DNS server.
